CUSTOMBEKLEDNING

Santini har samarbeidet med de største stjernene innen sykling i de siste 40 år. De produserer bekledning for flere PRO TOUR lag og er hovedsponsor til Giro D'Italia og UCI. De leverer alle VM-trøyene. Santini har alltid lagt sin erfaring og kompetanse i service til alle lokale lag og klubber som ønsker å skape en egen image med å bruke samme materialer og produkter som profesjonelle ryttere.

Deres custom design kan printes på et stort utvalg av tekniske produkter: trøyer, bukser/selebukser, tights, jakker og vester med og uten windstopper, hansker, skotrekk og mye mer.

Santini's egen design avdeling står til disposisjon for utarbeidelse av deres unike design. Alle Santini produkter er 100% håndlaget i Italia!

Det er to alternativer:

Full custom

- Minimum 30 stk. pr. sommerartikler og 15 stk. pr. vinterartikler.
- For å yte best og sikrest mulig service, send oss et eksempel av tidligere versjon av produktene dersom dere har det tilgjengelig.

Semi custom

- Det perfekte valg for mindre klubber og lag.
- Minimum 15 stk. pr. artikkel.
- Alle deres logoer, uten noen form for fargebegrensning, kan printes.
- Sjekk det store utvalget i design og fargekombinasjoner.

Slik går en frem:

Gi oss et estimert antall produkter, antall farger i bekledning og logoer (hvit teller ikke som farge).

Send oss logoer og en forklaring på hvor de forskjellige logoene skal plasseres. Logoene må være i ai eller eps format. Husk fargekoder!

Dere vil motta utkast til design som dere godkjenner, eventuelt jobber videre med for å gjøre det 100% slik dere ønsker det.

Når dere har godkjent design og sendt oss ordre spesifisert etter størrelse og antall, setter vi i gang prosessen hos Santini.

Dere vil da motta en bekreftelse på antatt leveringsdato.

Leveringstiden er normalt fra 6 til 10 uker + ca. 1 uke i frakt fra Italia, avhengig av når på året ordren blir satt og litt avhengig av produksjonssituasjonen hos Santini.

TEKNISKE DETALJER

Trøye kort arm:

Kort armet trøye i lett og absorberende materiale. Leveres med 14 cm glidelås.

Lang armet trøye leveres med hel glidelås og flosset/fleece materiale.

På forespørsel er det mulig å få trøyer med 30cm glidelås, hel glidelås eller skjult glidelås.

Selebukse:

Selebuksen leveres med Coolmax Techno padding. Perfekt passform og silicongrip ved lår. Kan også leveres med alternative paddinger som TOP og GEL INTECH.

Selene er produsert i samme materiale som buksen. På forespørsel kan buksene leveres med seler i hvit "mesh".

Vi kan også levere custombekledning fra F-Tech og Nalini.
